The BUFC Academy is for any player that is a U5 through U8 that is looking for more specific training by professional coaches. This is the next step for the soccer player wanting to play at the highest level at this age. The curriculum is based around approved exercises for the player that wants to be more technically efficient.

The season runs in conjunction with the BAYSL Recreational season program, plus an indoor session. Players will meet on Friday evenings with our professional staff for 6 to 8 weeks. The players will meet again on Saturday with normal BAYSL practice and games. They will play in a 3v3 or a 4v4 format with emphasis on having fun and being creative.

All aspects of the BUFC Academy is based around the development of basic soccer skills through creative, challenging, and FUN training sessions. All sessions will have a realistic goal set forth by the staff and will be enhanced by a positive environment where each child will feel free to be themselves and to develop their self esteem and confidence on and off the field.
